

CARENTAL

Carental is a car rental app template designed for building modern vehicle booking and mobility platforms. The template enables users to browse, book, and manage nearby premium and self-driven rental cars through a streamlined interface. It features a luxurious dark-themed UI along with core functionalities for vehicle selection, booking management, and rental tracking. Built with a clean and optimized codebase, Carental ensures reliable performance, secure data handling, and smooth user experience. Its scalable and customizable architecture makes it suitable for developing branded car rental and vehicle booking applications.
