

DELIMED

DeliMed is a pharmacy app template designed for building online medicine ordering, prescription management, and delivery systems. It enables users to upload prescriptions, browse medicines, place orders, and track deliveries, while pharmacies manage inventory, verify prescriptions, and process orders efficiently. Delivery agents handle logistics through a dedicated workflow for timely fulfillment. The template includes user, pharmacy, and delivery applications to support a complete operational structure. Key features include prescription upload and verification flow, real-time order and delivery tracking, wallet-based payment support, ratings and reviews for trust building, and structured inventory management tools. Built with a clean, modular, and scalable architecture, DeliMed provides a ready foundation for pharmacy delivery platforms.
