

DELIVOO

Delivoo is a versatile on-demand delivery app template designed for building delivery platforms across industries such as eCommerce, grocery, food, courier, pharmacy, and local services. The template includes dedicated User, Vendor, and Delivery modules that streamline the complete order and fulfillment process. Customers can browse stores and products, place orders, make secure payments, and track deliveries in real time through an intuitive interface. Vendors can manage inventory, update product information, process incoming orders, and monitor order fulfillment, while delivery personnel can efficiently manage assigned deliveries, update statuses, and navigate routes for timely service. Built with a modern user interface, scalable architecture, and optimized codebase, Delivoo delivers reliable performance, easy customization, and seamless integration, making it an ideal foundation for developing professional on-demand delivery, logistics, and marketplace applications.
