

FANZONE

Fanzone is a social media app template designed for building creator-focused community platforms with integrated monetization features. The template enables users to share images, videos, and stories, engage in group chats, and build interactive communities around shared interests. It includes advanced monetization capabilities such as paid posts, subscription-based exclusive content, and a virtual coin system for fan rewards and tipping. Built with a modern interface and scalable architecture, Fanzone supports strong user engagement, content discovery, and creator monetization, providing a flexible foundation for developing next-generation social networking applications.
