

FARMER APP

Farmer App is a comprehensive agriculture marketplace and farm management app template designed to support modern farming ecosystems. The solution includes dedicated Farmer, Seller, and Service Provider modules, enabling seamless interaction between agricultural stakeholders. Farmers can access market prices, manage crop listings, order agricultural products, apply for loans, and connect with buyers and service providers. Sellers can manage inventory, products, and orders, while service providers can list services, handle bookings, and engage with customers. Built with a scalable architecture and modern user interface, Farmer App provides a reliable foundation for developing feature-rich agricultural and agribusiness applications.
