

FOODOZ

Foodoz is a comprehensive multi-vendor food ordering and delivery solution that includes both mobile app and website templates for building restaurant marketplace platforms. The solution features dedicated User, Restaurant, and Delivery modules that streamline the entire food ordering ecosystem. Customers can discover restaurants, browse menus, place orders, make secure payments, and track deliveries in real time through an intuitive interface. Restaurant owners can manage menus, process orders, monitor sales performance, and update promotional offers, while delivery partners can receive order assignments, navigate delivery routes, and update order statuses efficiently. Built with a modern user interface, scalable architecture, and well-structured codebase, Foodoz offers smooth performance, easy customization, and seamless integration, making it an ideal foundation for developing feature-rich multi-restaurant food delivery and online ordering platforms.
