

GROSHOP

Groshop is a comprehensive grocery delivery solution that includes both mobile app and web templates for building modern online grocery and household shopping platforms. The solution features dedicated User, Vendor, and Delivery modules that streamline the entire order fulfillment process. Customers can browse products, search categories, manage carts, place orders, and track deliveries in real time through an intuitive shopping experience. Vendors can efficiently manage inventory, update product information, and process customer orders, while delivery personnel can monitor assigned deliveries and update order statuses throughout the delivery journey. Designed with a modern user interface, scalable architecture, and optimized codebase, Groshop delivers smooth performance, easy customization, and seamless integration, making it an ideal foundation for developing grocery delivery, supermarket, and multi-vendor eCommerce applications.
