

KDEMY

Kdemy is a feature-rich eLearning app template designed for building modern online education and course management platforms. The template enables users to browse, search, and enroll in courses through an organized course library with categories, filters, and detailed course information. It includes video-based learning support, progress tracking, course management, reviews and ratings, instructor profiles, bookmarks, learning history, and interactive Q&A features to enhance learner engagement. Designed with a clean and intuitive user interface, Kdemy delivers a seamless learning experience across various educational domains. Built on a scalable architecture with a well-structured codebase, it offers easy customization and backend integration, making it a reliable foundation for developing professional online learning applications.
