

MY FINANCE

My Finance is a business finance and accounting app template designed to simplify financial management for retail, wholesale, and service-based businesses. The template enables users to manage customers, suppliers, inventory, services, sales, purchases, expenses, and payment records through a centralized interface. It also supports bill generation, transaction tracking, and detailed financial reporting to help businesses monitor daily operations efficiently. Built with a scalable architecture and structured codebase, My Finance provides a reliable foundation for developing accounting, bookkeeping, inventory management, and business finance applications.
