

ONE HOSPITAL

One Hospital is a comprehensive healthcare and hospital management app template designed to streamline patient care, appointments, and medical service operations. The solution includes dedicated modules for Patients, Doctors, Hospitals, Pharmacies, Delivery Personnel, Laboratories, Reviews, Kiosks, and a Hospital Administration Web Counter. Users can book appointments, order medicines, and schedule lab tests, while healthcare providers can manage patient records, appointments, and service workflows. Built with a scalable architecture and organized system design, One Hospital provides a robust foundation for developing integrated healthcare, telemedicine, pharmacy, and hospital management applications.
