

PROPILLA

Propilla is a real estate app template designed for building modern property listing and transaction platforms. The template supports buying, selling, renting, and investing in properties through a streamlined and user-friendly interface. It enables users to browse residential and commercial listings, apply advanced filters, view interactive maps, and explore detailed property information with high-quality images. Additional features include saved listings, in-app chat, and a dashboard for managing posted properties. Built with a scalable architecture and optimized codebase, Propilla ensures smooth performance, customization flexibility, and a strong foundation for developing feature-rich real estate applications
