

## QCOMMERCE

**QCommerce** is a complete grocery ordering and delivery app template designed to streamline online shopping, order management, and last-mile logistics. It provides a structured ecosystem comprising a User Website & App and a dedicated Delivery App, enabling efficient coordination between customers and delivery personnel. Users can browse grocery products, manage carts, place orders, complete secure payments, and track deliveries in real time through a seamless shopping experience. Delivery agents can view assigned orders, follow optimized routes, update delivery statuses, and communicate with customers efficiently. Built with a clean, modular, and scalable architecture, QCommerce includes real-time tracking, smart notifications, and user account management, making it a reliable foundation for developing modern grocery delivery platforms with high performance and easy customization.
