

Smart School

Smart School is a comprehensive school management and school bus tracking app template designed for schools, colleges, and educational institutions. The solution includes a powerful web dashboard along with dedicated Parent, Teacher, and Driver apps to streamline communication, student management, and transportation operations. Administrators can manage records, attendance, staff, and school activities through the web panel, while parents stay informed with academic updates and real-time bus tracking. Teachers can manage assignments and student performance, and drivers can efficiently handle routes, pick-up, and drop-off activities through a simplified interface.
