

SMART STUDY

SmartStudy is a comprehensive education app template designed for building eLearning platforms for schools, coaching institutes, training centers, and private educators. The template includes dedicated Student and Faculty modules that support course management, assignments, assessments, communication, and performance tracking. Students can access courses, assignments, schedules, online exams, quizzes, results, leaderboards, and academic insights through a centralized interface, while also communicating with faculty through messaging and live group sessions. Faculty members can conduct video classes, interact with students, manage syllabi and learning content, and monitor student performance. Built with a modern user interface, scalable architecture, and optimized codebase, SmartStudy delivers reliable performance and easy customization, making it an ideal foundation for developing professional online learning, virtual classroom, and education management applications.
