

TRACK EMPLOYEES

Track Employee is an employee monitoring and workforce management app template designed for businesses to manage attendance and real-time location tracking. The solution includes two dedicated modules: Employee and Manager. The Employee module enables staff to log attendance and review tracking history, while the Manager module provides real-time location monitoring through an interactive map interface. Built with a clean, modern design and scalable architecture, Track Employee offers a customizable foundation for developing efficient workforce tracking, attendance management, and employee monitoring applications.
